

**II. In the Specification:**

In the section entitled: Cross-Reference to Related Applications, directly under the title of the invention on page 1, please delete the paragraph in its entirety and replace with the following:

-- This application is a divisional application of U.S. Serial No. 09/549,127, filed April 13, 2000, which is a continuation-in-part of International Application No. PCT/GB99/02589 (WO 00/09313) FILED 6 August 1999 which is based on and claims the benefit of priority to Great Britain Patent Application GB9817793.4 filed August 14, 1998. --

A replacement page 1 is submitted herewith.

**III. Please cancel claims 1 through 12 and amend claim 13 as follows:**

Claim 13 (Amended). A blister pack comprising [a] an embossed blister formed [according to the process of claim 1] from a laminated film comprising forming a blister by advancing a pin having a face with an indicia thereon in transversal direction relative to the film plane towards and into engagement with a platen bearing an indicia forming die thereon and located on the opposite side of said film wherein said advancing movement of the pin controllably stretches the film around the blister in a manner minimizing stretching of the film located at the base of the blister.

Applicant has renumbered claim 13 to be claim 1 on the attached replacement claim page.
